Data Viz Assignment Week 6

This week I chose an extremely relevant visualization to myself personally, as I watched the show that was referenced in the graphic, Physical 100, and searched up the exact same thing. I also did the same thing when I watched Squid Games, and I would be willing to bet that there is a spike when that was released as well, as it is the most popular Netflix show of all time (if I am not mistaken, maybe Stranger Things beat it out since then). The visualization was made using google trends. Super interesting how influential social media can be when it comes to popularizing certain shows and cultures.
